

A4 STOCK SPECIALITY SPEC SHEET

MULTIPURPOSE (LASER/COPIER/INKJET PRODUCTS)

White Paper with Glass Removable adhesive (GREM)

A bright white, multifunction uncoated, calendared paper designed for Litho, laser, and photocopiers. It also prints well in many Ink-Jet printers, though drying times may vary.

Face material properties

Grammage	72 gsm
Calliper (thickness)	70 microns

Adhesive

An Ultra-Removable Acrylic microsphere adhesive. This very modern technology creates a combination of tack and removability that are unmatched by any other adhesive available, giving the opportunity for labels to be applied for long periods of time to almost any surface and yet still be removed cleanly! This adhesive has a balanced PH value of 7 making it especially suitable for long-term archival projects.

Minimum application temp.	10°C
Storage range once applied	-15°C to +60°C

Backing

A white woodfree kraft backing paper

Thickness	75 microns
Grammage	75 gsm

Environmental

Paper components are either ECF or TCF grade manufactured using pulp from sustainable, managed resources. All dimensions are nominal target specifications but may vary. All products within our range are manufactured to BRC standards, the factory is also FSC certified. The raw material laminates are also made to the same ISO standards as above and to ISO 14001.

Markets and Uses

Specifically developed for the Double-Glazing Industry as this product does not leave a residue when removed. Also ideal on delicate items like Greeting Cards or Books as cleanly removed when stuck directly onto the item.

Double Glazing, Retail, Greeting Cards Industry, Book Shops.
