PREMIUM FLAT HEAD WAX RESIN

PRODUCT DESCRIPTION

This grade is an excellent all-round premium wax resin ribbon available in a wide range of vivid colours – great for printing dark, crisp images and barcodes on a range of paper and synthetic labels. It also offers the durability and smudge/scratch resistance expected of such a premium product. Developed specifically to cover the widest possible range of pre-printed labels, it gives excellent performance on various inks used in the spot and flood coating processes, eliminating any possible slippage during the printing process. Additional thermal transfer varnish on the label is not required, thus reducing total cost of ribbon and label. It also features an excellent backcoat system which combined with the unique ink formulation dissipates static and is versatile enough to print on a wide variety of both paper and synthetic label stocks.
